As a global organization of schools, the UWC movement has been taking measures to safeguard the health and well being of our community against the COVID-19 outbreak since late January and we continue to do so each day.

UWC Mostar and all UWC schools have been taking action depending on their location, context and advice from local authorities, while acknowledging that the situation is in constant evolution.

Due to COVID-19 pandemic and closure of schools in Bosnia and Herzegovina, UWC Mostar continues conducting all activities and work online.
